# U.S. EXPORT SALES

- Outstanding Export Sales  
(Unshipped Balances)  
on JUNE 19, 1977
- Export Shipments in  
Current Marketing Year
- Daily Sales Reported  
JUNE 20 - 26, 1977  
--As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of June 30, 1977, (based on reports from exporters for the week ending June 19 unless otherwise noted):

Wheat: Sales activity was relatively moderate with a net increase of 680,000 metric tons (MT). Japan's usual purchases, along with Iran's purchase of 265,000 MT of White wheat, and the sale of 50,000 MT of Soft Red Winter to Egypt under PL-480 were the highlights for the week. Sales to unknown destinations also registered a significant increase. Sales to the EC have been conspicuously slow as their good crop prospects are apparently prompting a wait and see buying attitude. Volume of exports remain low, improving only slightly over last week.

Corn: Sales activity was the slowest since early April. A number of sales were reported to EC countries, Poland, Egypt, Mexico and Japan. However, cancellations or foreign purchases partially negated the impact of the new sales. Substantial shifts of sales out of unknown destinations were reported including 25,300 MT for the Soviet Union. Activity for the 1977/78 marketing year (MY) was rather subdued except for sales to unknown destinations first reported last week under the daily system. Exports fell back after last week's minor surge.

Barley: Sales activity continued reasonably heavy with Korea the principal buyer. Sales to Algeria rose as 16,500 MT was shifted from unknown destinations.

Sorghum: Net new sales totalled nearly 100,000 MT with almost two-thirds of the activity for 1977/78 delivery. Optional origin sales for 1976/77 declined as new sales to Mexico were more than offset by a reduction in optional origin sales to Japan. Weekly exports were the heaviest in over a month.

Rice: The rice export market was relatively quiet with two exceptions. Total 1976/77 MY sales to Iran neared 500,000 MT as new purchases of 59,000 MT of milled long grain were reported and 24,800 MT were shifted to Iran from unknown destinations. Guinea's purchase of 10,100 MT of long grain under PL-480 was the only other notable feature. Iran also added to their 1977/78 purchases. The export pace picked up sharply from the level of the past 3 weeks.

Soybeans: For the third time in the last 4 weeks, total sales for 1976/77 were reduced. Significant sales cancellations along with net foreign purchases more than offset the modest pace of new sales. Total sales for the next MY increased by 177,500 MT as new sales were made to the EC, Japan, Israel and unknown destinations. Exports are over 94 percent of the current USDA projection for the 1976/77 MY.

Soybean Cake and Meal: For the first time this MY, sales cancellations and net foreign purchases more than offset new business, resulting in a net reduction in total sales. Much like soybeans, most of the contract adjustments were in sales to the EC and unknown destinations. Exports were slow, going primarily to Romania, the Netherlands and Canada.

Soybean Oil: New sales were principally to Mexico, Israel and Peru. Exports were buoyed by a 14,700 MT shipment to India.

Cotton: Sri Lanka's initial purchase of Pima was the only notable activity for the current MY. Sales for MY 1977/78 remained good as significant quantities were added to Korea, Japan, Taiwan and 20,000 RB to the PRC. Weekly exports surged to 138,300 RB, the fourth heaviest this MY. Liftings to India, Bangladesh and Korea were unusually large as 88 percent of the total exports went to Asia.

Oats: Showed no significant activity.

SUMMARY OF CURRENT WEEK'S TRANSACTIONS BY REPORTING CATEGORY

Data shown above may not add due to rounding. 1/ Includes increase resulting from new sales, upward contract adjustments, shifts in delivery period from one marketing year to another and changes from one commodity to another. 2/ Net foreign purchase activity. A purchase from a foreign seller is a transaction contracting to buy U.S. produced commodity from a firm outside the U.S. -- not involving a cancellation or buy-back of a reported sale. 3/ Includes decreases resulting from buy-backs of all or part of a contract balance by mutual consent, unilateral cancellation by one party which could result in a contract dispute, downward contract adjustments, shifts in delivery period from one marketing year to another, and changes from one commodity to another. 4/ Does not include exports for exporter's own account.
